

Where the gold came from, and where it went back to

The 10 largest US gold partners by bilateral trade (HS 7108 + 7115), three phases each. Above the diagonal the US is a net importer.

Four one-directional corridors would rank inside this top ten but cannot be drawn:

South Africa (\$1.53bn), Hong Kong (\$1.53bn), Kazakhstan (\$0.45bn), Italy (\$0.18bn).

Their gold moves to the US and does not come back, so they have no export coordinate.
