

Where the gold came from, and where it went back to

The 5 largest US gold partners by bilateral trade (HS 7108 + 7115), three phases each. Above the diagonal the US is a net importer.

Two one-directional corridors would rank inside this top 5 but cannot be drawn:

South Africa (\$1.53bn), Hong Kong (\$1.53bn).

Their gold moves to the US and does not come back, so they have no export coordinate.
